The Mission of Goddard College

Goddard is a small college in rural Vermont for plain living and hard thinking. Founded in 1863, Goddard is recognized for innovation in education. Its mission is to advance the theory and practice of learning by undertaking new experiments based upon the ideals of democracy and the principles of progressive education asserted by John Dewey. Goddard students are regarded as unique individuals who will take charge of their learning and collaborate with other students, staff, and faculty to build a strong community. Goddard encourages students to become creative, passionate, lifelong learners, working and living with an earnest concern for others and the welfare of the earth.
